FREDDY'S JEWELRY

Printable ring sizer

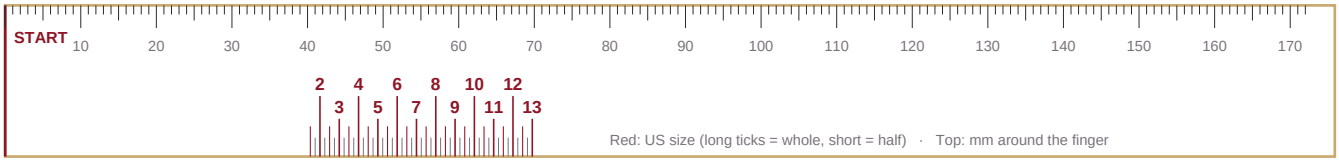

PRINT AT 100% / ACTUAL SIZE. Turn OFF "Fit to page" / "Scale to fit".
Then check the ruler below with a real ruler before you cut.

STEP 1 Check scale: this line must measure exactly 100 mm (10 cm)

Or lay a bank card here: it should match this outline (85.60 x 53.98 mm).

STEP 2 Cut out the strip along the gold line. The red START line is the very end of the strip.

STEP 3 Wrap the strip around the base of the finger, numbers facing out, START end underneath.

STEP 4 Snug, but it should still slide over the knuckle. Read the US size where the strip overlaps the START line.

STEP 5 Between two sizes, choose the larger. For bands wider than 6 mm, go up a quarter to a half size.

Measure at the end of the day, when fingers are warm. Repeat 2-3 times for a consistent reading.
